SAYS TRUSTS ARE **BLESSING TO NATION**

Republican Representative Calderhead of Kansas Makes a Remarkable Campaign Speech.

DENOUNCES ORGANIZED LABOR.

Declares the Latter Is the Greatest Menace the Country Ever Had -Monopolies a Godsend to Him.

REPUBLIC SPECIAL. Topeka, Kas., Sept. 27.-In a remarkable olitical speech W. A. Calderhead, Repub-Bcan Representative from the Fifth Kansas District, defended the trusts, which he characterized as "godsends to the country, and denounced organized labor as "the

greatest menace the country ever had." His remarks have caused a sensation, as Mr. Calderhead is a prominent member of the Committee on Banks and Banking in the lower house and has been regarded as a conservative. He said in part:
"Why all this fues about the trusts?

Speaker Henderson has resigned because some Republicans insist on tariff revision as a panacea for the imaginary ills which the trusts are supposed to represent. Why seek to remedy that which has been a blessing.

seek to remedy that which has been a blessing?

"I deny that the trusts constitute an evil. I contend that they have been a godsend to the country. Why remedy or disturb them? I have no sympathy or patience with this fuss about the trusts. I care not if it does emanante largely within my party. I consider it all political buncombe.

"The trusts never will be remedied and they ought not to be. I see evidence of their beneficial results on every hand. They are the handmaids of progress in every channel of business and every avenue of life. They have reduced the cost of living. They have reduced the cost of living. They have promoted science and encouraged invention.

"Instead of attempting to remedy or suppress" or 'control' or 'disturb' that which we know is a blessing we should turn our attention to that which is known to be an evil and take a hand at suppressing organized labor.

"I regard organized labor as the greatest menace this country has to-day. It not only robs its members of their liberty, but is a constant menace to the lives and property of the whole people. It is the cause of famine and bloodshed. It frequently causes a famine in the necessaries of lise.

"It refuses to recognize brains and it holds the brainy, capable member down with the dullard. It is a barrier to progress, a bad and dangerous thing, and should be suppressed."

NEW IDEA IN LABOR UNIONS.

Employers and Employes to Be Members and Put Up Forfeits.

REPUBLIC SPECIAL New York, Sept. 27.—Charles W. Post of Battle Creek, Mich., to-day told the Associa-tion of American Advertisers of a new union now being formed to embrace both employ-ers and employes, and designed to insure stability and permanence in various avenues of employment.

stability and permanence in various avenues of employment.

"Under the new union," said Mr. Post. "a contract is entered into between the employer and employe for six months or a year at a rate mutually fixed. The employer deposits a satisfactory bond of \$25 for every employe, and each employe deposits each pay day 2 cents on the dollar of his pay until he has deposited \$25.

If the employer does not keep his agreement he forfeits \$25 to the employe, and the employe likewise forfeits his deposit up to \$25 if he fail to keep his contract. The central office has been established at No. \$25 Vermont avenue, Washington, D. C.

It does not seem possible for them to unite on one candidate for Congress, and the regulars are determined never to support Addicks or any of his faction for the United States Senate.
